WOOD

Inspiration

4

Unique style in harmony with nature

Nothing is more soothing to our mind than the colors and textures taken from the world of nature. This is because what is best is reflected in nature. When creating the collection of wood-like tiles, we focused on the combination of beauty and uniqueness of wood with durability and strength of porcelain stoneware and clinker tiles. The new collections amaze with their colors and structure, creating a unique mood in every interior.

They are an exceptional material both for modern and classic concepts.

Thanks to the digital print technology, the fine grain texture of wood has been reflected with extraordinary craftsmanship. The tiles can successfully replace wood, while keeping their warm material for both modern and classic concepts.

5

Raw elegance

NICKWOOD

Inspiration for the creation of the Nickwood collection comes from the beauty of natural wood. Tiles with a matte surface and a non-uniform structure are perfect imitation, and a modern interpretation of raw wood boards. The special abrasion marks on the surface are also very characteristic for rough timber. They add originality and a unique effect to any interior.

NICKWOOD

beige

The Nickwood tiles are great for any interior.
They allow us to enjoy the effect of a wooden
floor in kitchens and bathrooms.

10

Dark wood is always a strong accent when it comes to interior design.
Dark colors are not only elegant and stylish, but they also add depth
to any arrangement. Nickwood tiles in brown shades catch the eye
and remain timeless.

12

NICKWOOD
marrone

This collection is perfect for both warm, classic interiors as well as for modern spaces. Inspired by nature, it makes the Nickwood wood-like tiles a perfect basis for various arrangement styles.

13

They blend extremely well into both rustic and modern interiors.
The final look is determined by selected decorations.

Charming in its simplicity

LIBERO

The Libero collection is the essence of elegance and simplicity. Combining the unique quality of wood with the exceptional durability and strength of porcelain stoneware has allowed us to create a collection that is perfect both for classic, warm interiors and for modern spaces. Light tones fit in well with minimalistic Scandinavian interior designs, while darker tones go exceptionally well with an industrial arrangement of the interior.

Design close to nature

NOTTA

It is more and more often that we invite nature into our interiors, as we believe that it has a positive impact on our mood. The Notta collection offers various wood effects that suit almost every style. Tiles imitating light, wooden parquet, classic wooden floors and dark-tinted exotic floors are one of the most popular elements of fashionable and original designs included in the Cerrad's collections.

Tiles from the Notta collection arranged in the classic style are the best solution for minimalistic spaces, while a herringbone arrangement emphasises the rustic style of interiors.

43

It is worth choosing enigmatic and original compositions.
Dark wood combined with grey tints looks very fashionable
and modern, which makes it perfect for lofts and industrial spaces.

TRAMONTO

The Tramonto collection tiles perfectly imitate the texture of wood and look as grand and noble as the classic parquet. In order to create an interior with a timeless style, cosy and unique, customers can select various colors from the Tramonto collection. Each tile has its unique graphic design that represents wood grain and structure; hence, tiles arranged together look like natural wooden boards, adding a new quality and style to any space.

MARBLE

Inspiration

In great style

In the past, marble was exclusively used in the interiors of stately homes and other such privileged places. Today, marble suits any style and interior type, and our porcelain stoneware tiles are a lovely representation of this natural design, and each day they are more and more desired by fans of elegant, timeless spaces, arranged with a subtle hint of the latest trends.

Repertoire of colors

CALACATTA GOLD.

The Calacatta Gold collection is where we find beautiful veining patterns of luxury marble in porcelain stoneware tiles to add glamour and timeless elegance to the interior. Tiles in white and grey colors, with slight gold tinting,

brighten and revitalise the arranged space, and in combination with distinctive accents of the decors, add a unique character to the interior.

An appropriate selection of the Calacatta Gold tile format gives the impression of a monolithic block of marble.

CONCRETE

Inspiration

98

Minimalism in a modern version

Concrete is currently one of the most popular materials used in interior design. It fits perfectly not only into lofts and industrial spaces, but also into cosy rooms when combined with warm decor and accessories.

It is always loved by fans of minimalism and appreciated by various interior designers. It attracts attention, evokes admiration and breaks free of the routine, giving a wide range of design possibilities.

99

Raw mastery

SOFTCEMENT

Fans of minimalist interiors will greatly enjoy the structure of concrete that inspired the Softcement tile collection. An interesting structure along with patchwork accents, is a mix of several interior design trends, that create an impressive and consistent composition in the collection.

The imitation of concrete in three shades of grey, combined with very attractive decor and tiles with 3D-print structure, adds a new and interesting character to any room. The Softcement collection is recommended to customers that would like to capture the energy and harmony of subtle and consistent interiors.

Modernity, minimalism and harmony have never been closer.
The exceptional Softcement collection is a variation on the beauty
hidden in the raw aesthetics of concrete.

BENEFITS OF THIN TILES

116

Optional installation of tiles on the existing surfaces*

- > avoiding additional costs related to the removal of old materials
- > time-saving solution

Optimal use of the functional space

- > more options on the design stage
- > easier adaptation to the existing floor, e.g. floor panels

More efficient heating

- > faster dissipation of heat from the floor and wall heating systems
- > higher efficiency of the heating system
- > money saving

Weight / Volume

- > savings on transport costs
- > more efficient transport
- > reduced storage needs
- > lighter tiles = easier installation

Easier processing/cutting

- > easier tile cutting
- > improved installation efficiency
- > straight line finish
- > cutting of more complex shapes

Environment protection / Sustainable business operations

- > 100% natural product
- > much lower energy consumption in production
- > lower CO₂ emission in production
- > reduced quantities of removed and transported materials when installing tiles on existing surfaces
- > reduced fuel consumption in transport thanks to lower tile weight

Variety of applications

- > walls, floors
- > installation on curved surfaces thanks to higher flexibility
- > finishing of hard-to-access cavities, lift shafts, storage areas
